

I have lived in Shawnee, OK for over 50 years. We have 2 translator stations that I listen to daily. If the proposed LPFM format takes priority over the current FM translators, our community could be forced to listen to other programming. With KLOVE & KLVV, our community receives wholesome & uplifting music, humor, news, educational & public service spots. They both provide well rounded programming that benefits many in the community as witnessed by the number of bumper stickers which display the call letters of each station. I urge you not to enact changes that will jeopardize the service provided to our community by KLOVE & KLVV. Thank you.
